

RefinableObj

```
classDiagram
    class RefinableObj
    class ObjCrystCellExplorer["ObjCryst::CellExplorer"]
    ObjCrystCellExplorer --|> RefinableObj
```

A UML class diagram illustrating inheritance. At the top is a box labeled 'RefinableObj'. Below it is a box labeled 'ObjCryst::CellExplorer'. A blue arrow points from the 'ObjCryst::CellExplorer' box up to the 'RefinableObj' box, indicating that 'ObjCryst::CellExplorer' inherits from 'RefinableObj'.
